- Calm down before prayer. Choose a time when you are relaxed and not in a hurry or distracted. Prepare yourself emotionally
- read the bible
- sing a song/ hymn
- act as if you are standing In front of a king
- make the sign of the cross
- make your heart and mind share in your prayer
- quality not quantity. Better to read 1 chp and understand than to read A lot and not
- when you ask something of god, ask for his will.
- 3 types of prayer: praise(church,group prayers,etc), repentance, personal prayer
- try to practice prayer everywhere. Not just church or at home.
- oh lord hear, forgive,listen and act. Danial 9:19
- Pray for others
- prayer is attachment to god at all times in life. Life becomes a continuous prayer
- prayer is the key to heaven.
- whoever thinks there is another way than repentance is tricked by the devil
- it is very important to always know and understand the importance of praying. Prayer is like breathing. Prayer is your secret to triumph over the devil.
- Put in your heart that prayer gives you spiritual power. It's like walking hand In hand with god
